Music

Michael Stein and Kyle Dixon of the electronic band Survive have composed the original soundtrack for the show, including the show's theme song. In addition to original music, *Stranger Things* features period music from artists like Kate Bush. Here is the theme song:

The Duffer Brothers developed *Stranger Things* as a mix of investigative drama and supernatural elements portrayed with horror and childlike sensibilities, while infusing references to the pop culture of the 1980s. Several thematic and directorial elements were inspired by the works of Steven Spielberg, John Carpenter, David Lynch, Stephen King, Wes Craven and H. P. Lovecraft. They also took inspiration from experiments conducted during the Cold War and conspiracy theories involving secret government experiments.
